ConnectedSuite

LENDER PARTNERSHIP · STANDARD FORM TC-EPA V2.0

Ecosystem Partner Agreement

The agreement a licensed lender signs to join ConnectedSuite as a partner: to use the systems it chooses, to contribute to and draw on the Interchange, and to help build the estate. BirgenAI Hub develops and provides ConnectedSuite; Techcrast packages and sells it. Read it in full before any commercial discussion goes further.

For	Provider	Distributor	Form
Lenders joining as partners	**BirgenAI Hub Limited**	**Techcrast Software Solutions Ltd**	**TC-EPA v2.0 · 27 Oct 2026**

Standard form for negotiation. Square-bracketed items are completed per partner in the Schedules. To be reviewed by an advocate of the High Court of Kenya before signature. Replaces TC-EPA v1.0 of 20 October 2026.

ConnectedSuite is developed and owned by BirgenAI Hub Limited, founded by Emmanuel Birgen, and distributed by Techcrast Software Solutions Limited.

00 Summary of the deal

This summary is for orientation and is not part of the agreement. The clauses that follow govern.

TOPIC	THE POSITION
Who is who	**BirgenAI Hub** develops, owns, hosts and supports ConnectedSuite, and issues its invoices. **Techcrast** packages and sells ConnectedSuite under its umbrella and mark, and is the Partner's relationship contact. The **Partner** is the lender.
What the Partner gets	The systems in Schedule 1, its own branded sign-in door and installable app, membership of the Interchange, a Product Council seat, early access to new systems, and a referral credit.
What it pays	The systems it has accepted, at the partner prices in Schedule 2, invoiced monthly by BirgenAI Hub. There is no fixed figure for the estate: a new system joins the invoice only after a pilot and written acceptance. Bureau reports are priced on the Interchange API Rate Card.
What it gives	Pays on time, contributes its book to the Interchange in tokenised form, takes part in pilots, gives timely feedback, and may be named as a partner in wording it approves.
Who owns what	The Partner owns its data, its configuration and its brand. BirgenAI Hub owns ConnectedSuite and everything built on it. No shares or ownership interest pass under this agreement.
Term	12 months, then renewing for 12-month periods.

01 Parties

BirgenAI Hub Limited, a private company limited by shares, incorporated in Kenya under the Companies Act, 2015 ("**BirgenAI Hub**", the "**Provider**");

Techcrast Software Solutions Limited, a company incorporated in Kenya ("**Techcrast**", the "**Distributor**"); and

[Partner legal name], a company incorporated in Kenya, registration number [_____], of [address] ("**the Partner**"), [licensed by the Central Bank of Kenya as a [digital credit provider / microfinance bank] / registered as [_____]].

Background

A. **ConnectedSuite** is an estate of systems for licensed lenders: the Lending Console, CallBox Call-Center, PeopleHub HR, the Customer Portal, Analytics & Reporting, Ledgerly Accounting and the Interchange. All of them sit under one sign-in, BirgenAI ID. It was conceived and developed by Emmanuel Birgen, founder of BirgenAI Hub, which owns it and leads its engineering.

B. Techcrast packages and sells ConnectedSuite under its umbrella and mark.

C. The Interchange is a member exchange through which lenders learn a borrower's exposure across members without any member seeing another's book.

D. The Partner wishes to use the systems in Schedule 1, to join the Interchange and to help shape the estate.

02 The agreement

1. **Definitions.** "**Platform**" means ConnectedSuite, its systems, software, models, documentation and every improvement, modification and derivative of them, whoever proposed it. "**Partner Data**" means data the Partner, its staff or its borrowers put into the Platform, and reports generated solely from it. "**Interchange Contribution**" means the tokenised position data described in Schedule 3. "**Systems**" means the systems listed in Schedule 1, as amended under clause 3. "**Rate Card**" means the Interchange API Rate Card in force. "**Data Protection Law**" means the Data Protection Act, 2019 and its regulations.

2. **Grant.**
2.1 BirgenAI Hub grants the Partner a non-exclusive, non-transferable right, for the Term, to use the Systems for the Partner's own lending business in Kenya, and to let its staff and borrowers use them.

   2.2 The Partner shall not resell, sublicense, white-label for a third party, reverse-engineer or copy the Platform, or use it to build a competing product.

   2.3 The Partner's staff each hold their own BirgenAI ID. The Partner is responsible for whom it admits and for the rights it grants them.

3. **Systems, pilots and acceptance.**
3.1 BirgenAI Hub hosts the Systems in Kenya, maintains and secures them, applies updates and meets the service levels in Schedule 4. It may improve, change or retire features, but not so as to materially reduce the core function of a System the Partner pays for without 60 days' notice.

   3.2 A new System is first piloted on the Partner's own operations for at least 14 days, at no charge, against acceptance criteria agreed in writing beforehand. The Partner accepts it in writing, or declines it, within 14 days after the pilot. A System the Partner keeps using in live operations for 30 days after its pilot, without written notice of a material defect, is accepted.

   3.3 An accepted System is billed from the first billing month after acceptance. A System may be switched off by written notice, from the next billing month.

4. **Fees and invoices.**
4.1 The Partner pays, monthly, the partner price in Schedule 2 of each System it has accepted. There is no fixed figure for the estate: the subscription is the sum of the Systems in use.

   4.2 **BirgenAI Hub's invoice** is issued on the first day of each month. It carries that month's subscription in advance and the previous month's metered usage and Interchange reports in arrears. It is payable within 14 days, by M-PESA from Billing in the app launcher or to **Buy Goods Till 5620596, account name BIRGENAI HUB**.

   4.3 **Techcrast's invoice**, if the Partner takes any of Techcrast's own services such as ServiceSuite, is issued by Techcrast under its own agreement with the Partner. It is payable to **M-PESA Paybill 303030, account number 2044699985, Techcrast Software Solutions Ltd**. It is not a ConnectedSuite fee.

   4.4 Each invoice is paid only to the account printed on it. A payment made to the wrong account does not settle the other invoice. The Party that receives it forwards or refunds it within 5 business days of being told.

   4.5 List prices change only on 60 days' written notice, by no more than 10% on any System in any 12 months, and never for a month already invoiced.

4.6 If an invoice is unpaid 14 days after issue, metered services (scoring, bureau, identity and AI) may pause until payment. The Partner's loan book, repayments, collections and data never stop for non-payment. Suspension of anything else requires 30 days' written notice.

4.7 Fees exclude VAT, which is added where, and from when, the issuer is registered for it. Invoices are issued through KRA eTIMS where the law requires.

5. **Roles of BirgenAI Hub and Techcrast.**
5.1 BirgenAI Hub decides the Platform's architecture, priorities, design and releases. It provides second-line support and every engineering change.

5.2 Techcrast is the Partner's first point of contact for its relationship and account, and coordinates onboarding and training. Techcrast may not change the Platform, its prices or these terms except as BirgenAI Hub agrees in writing.

5.3 Techcrast's remuneration for distributing ConnectedSuite is agreed between BirgenAI Hub and Techcrast and does not change the Partner's fees.

6. **The Partner's commitments.** The Partner shall: (a) make the Interchange Contribution under Schedule 3 while it is a member; (b) nominate one senior person to the Product Council, which meets at least quarterly; (c) take part in agreed pilots and respond to product questions and acceptance tests within 5 business days; (d) obtain and record every borrower consent its processes and Schedule 3 require, using the consent tools in the Platform; (e) hold every licence and registration its lending requires; and (f) allow BirgenAI Hub and Techcrast to name it as an Ecosystem Partner in wording it has approved.

7. **The Interchange.**
7.1 The Partner joins the Interchange as a member on admission by its ecosystem governor, under written Membership Rules that apply equally to all members.

7.2 The Interchange never discloses one member's book to another. Members see only the aggregates described in Schedule 3.

7.3 Ecosystem reports are free to members whose contribution is current. A member that stops contributing loses them, and is shown to others as "not published", never as "no exposure".

7.4 Bureau reports are obtained only with the borrower's consent and for a permitted purpose, and are priced on the Rate Card. They are fulfilled either under the Partner's own bureau subscription, connected through the Interchange (the Partner then pays the bureau and only the Interchange fee), or under a contract-holding member's subscription where that member and the bureau permit it.

7.5 The Partner uses Interchange answers only to assess and manage credit for the borrower concerned. It never uses them to market to, solicit or target another member's borrowers.

8. **Data protection.**
8.1 For Partner Data, the Partner is the data controller and BirgenAI Hub its data processor. BirgenAI Hub processes Partner Data only on the Partner's documented instructions, which this agreement and the Partner's use of the console constitute.

8.2 Each Party maintains the registration with the Office of the Data Protection Commissioner that Data Protection Law requires of it.

8.3 BirgenAI Hub keeps Partner Data confidential and separated by organisation, applies appropriate security measures, keeps an audit trail of access, uses only sub-processors bound by

equivalent terms, and tells the Partner of a personal data breach within 24 hours of becoming aware of it.

8.4 BirgenAI Hub may produce anonymised, aggregated statistics from Partner Data to operate and improve the Platform, including its models, provided no output identifies the Partner, a borrower or a member's book.

8.5 On termination, BirgenAI Hub gives the Partner a complete export of Partner Data within 30 days, then deletes it within 90 days, except where the law requires it to be kept.

9. **Ownership.**
9.1 The Partner owns Partner Data, its configuration and its names, marks and brand assets, and licenses BirgenAI Hub to use them to provide the Systems.

9.2 BirgenAI Hub owns all rights in the Platform, including improvements and features the Partner suggests, requests, specifies or tests. To the extent any such right would vest in the Partner or in Techcrast, it is assigned to BirgenAI Hub.

9.3 Feedback may be used by BirgenAI Hub freely and without payment.

9.4 **No equity.** Nothing in this agreement confers shares, options, warrants, profit share or any ownership interest in any Party. Any such interest would require a separate instrument approved by the issuing company's board.

10. **Referrals.** For each licensed lender the Partner introduces in writing that signs a ConnectedSuite subscription within 12 months of the introduction, the Partner receives a credit of 10% of the subscription fees that lender pays in its first 12 months. The credit is applied quarterly to the Partner's own invoice.

11. **Confidentiality.** Each Party keeps the others' confidential information confidential, uses it only for this agreement, and discloses it only to staff and advisers who need it and are bound by equivalent duties, or where law or a regulator requires. This clause survives termination for 5 years, and indefinitely for personal data and trade secrets.

12. **Term and termination.**
12.1 This agreement starts on the Start Date in Schedule 1 and runs for 12 months. It then renews for successive 12-month periods unless the Partner or BirgenAI Hub gives 90 days' written notice before a renewal date.

12.2 Any Party may terminate on written notice if another materially breaches this agreement and fails to remedy it within 30 days of notice, or becomes insolvent.

12.3 BirgenAI Hub may terminate on 30 days' notice if the Partner loses a licence its lending requires, or uses the Platform unlawfully.

12.4 If Techcrast's distribution role ends, this agreement continues between BirgenAI Hub and the Partner.

12.5 On termination the Partner pays fees due to the termination date, and clause 8.5 applies. Clauses 8, 9, 11, 13 and 14 survive.

13. **Warranties and liability.**
13.1 Each Party warrants that it has authority to enter this agreement. BirgenAI Hub warrants that it has the right to grant the rights in clause 2.

13.2 Lending decisions are the Partner's own. Scores, Interchange answers and bureau reports inform them and do not guarantee repayment.

13.3 No Party is liable for indirect or consequential loss, or loss of profit. Each Party's total liability in any 12 months is capped at the ConnectedSuite fees paid or payable in those 12 months. The cap does not apply to fraud, wilful misconduct, a breach of clause 7.5, 8 or 11, or unpaid fees.

14. **Disputes and law.** This agreement is governed by the laws of Kenya. The chief executives of the Parties concerned first try to settle a dispute within 21 days. Failing that, it is referred to arbitration in Nairobi before a sole arbitrator under the Arbitration Act, 1995. If the Parties cannot agree on the arbitrator, the Chairperson of the Chartered Institute of Arbitrators, Kenya Branch, appoints one. Any Party may seek urgent interim relief from the courts.

15. **General.** Nothing in this agreement creates a partnership in law, a joint venture or an agency. BirgenAI Hub may assign this agreement to a company it controls, or under common control with it, that owns or operates the Platform, on notice. Otherwise no Party may assign it without the others' consent. This agreement, with its Schedules, is the entire agreement on its subject. Amendments must be in writing and signed by the Parties they affect. Notices go to the addresses in Schedule 5. No Party is liable for delay caused by events beyond its reasonable control.

S1 Schedule 1: Systems and start date

SYSTEM	TAKEN FROM START / IN PILOT	NOTES
Lending Console (Premium / Startup edition)	[_____]	Edition: [_____]
CallBox Call-Center	[_____]	Agent seats: [____] · PBX: [own / ConnectBox]
PeopleHub HR	[_____]	Staff on payroll: [____]
Customer Portal	[_____]	App name: [_____]
Analytics & Reporting	[_____]	
Ledgerly Accounting	[_____]	
The Interchange	[_____]	Member code(s): [_____]

Start Date: [_____] · Mode: [native book / bridged to the Partner's ServiceSuite, entity [_____]]

S2 Schedule 2: Partner prices

ITEM	KES
Each System, at its list price in the ConnectedSuite Price Book (27 October 2026)	Price Book §2
Multi-system discount (10% for two, 15% for three, 20% for four or more)	Price Book §3
Partner discount, in addition, on the systems taken	[____]%
Interchange membership (contributing member)	Waived
Onboarding	[Waived / KES _____]
Usage past the allowances	Price Book §4
Bureau reports	Interchange API Rate Card
SMS past the allowance	Prepaid bundles, Price Book §4

S3 Schedule 3: The Interchange data-sharing protocol

1. **What is contributed.** For each open position: a borrower token derived from the national ID by a keyed one-way function that only the Interchange can compute, the outstanding balance, the arrears bucket, the product and the dates. No name, phone number or ID number leaves the Partner's systems.
2. **How.** Positions are published at least daily, signed with the Partner's own member key. Every request between nodes and the registry is signed and logged.
3. **What a member may ask.** The exposure and delinquency of a borrower who has applied to it, or is its customer, and only with that borrower's recorded consent. Each query carries its consent reference.

4. **What a member sees.** Aggregates only: how many loans, at how many lenders, a banded outstanding total, the worst arrears bucket and the most recent disbursement date. Never which member holds the borrower, unless the borrower consents to that disclosure.
5. **Bureau reports.** Through the Interchange, on the Rate Card, in the shared or the own-contract lane (clause 7.4).
6. **Audit.** Every query, consent and bureau pull is logged, and each member can read the log of its own activity. The ecosystem governor may audit a member's consents on 10 business days' notice.

S4 Schedule 4: Service levels

MEASURE	COMMITMENT
Availability, measured monthly at the sign-in door	99.5%, excluding notified maintenance between 22:00 and 05:00 EAT
Severity 1: a System is down for all users	Response within 1 hour; work continues until it is restored
Severity 2: a core function is impaired	Response within 4 business hours
Severity 3: a question or minor fault	Response within 1 business day
Service credit below 99.5%	5% of that month's ConnectedSuite fees for each 0.5% below, up to 25%
Backups	Daily, kept 30 days; restore tested quarterly
