ConnectedSuite

FOUR-PARTY AGREEMENT · REFERENCE TC-FPA-2026-02

ConnectedSuite Founding Partnership Agreement

BirgenAI Hub, Techcrast, Axe Micro-Enterprise and Micromart Africa agree how ConnectedSuite is built, sold, priced, paid for and shared: who owns what, what each lender holds and pays, how the Interchange works between the two founding lenders, and how the price grows only as new systems are delivered and accepted.

Reference	Effective date	Parties	Governing law
TC-FPA-2026-02	1 November 2026	Four	Republic of Kenya

Confidential between the four Parties. Execution draft of 27 October 2026, for review by each Party's advocate before signature. Supersedes the two-party draft of 20 October 2026 and the unsigned reference TC-FPA-2026-01.

ConnectedSuite is developed and owned by BirgenAI Hub Limited, founded by Emmanuel Birgen, and distributed by Techcrast Software Solutions Limited.

00 The partnership on one page

DEVELOPER AND OWNER

BirgenAI Hub

Builds, engineers, hosts and controls ConnectedSuite and operates the Interchange. Emmanuel Birgen is its founder and the estate's lead engineer.

DISTRIBUTOR

Techcrast

Packages and sells ConnectedSuite to the market under its umbrella and mark. Licenses and supports ServiceSuite, on which both lenders hold their books.

FOUNDING LENDING PARTNER

Axe Micro-Enterprise

Works Boresha (3003) and Stawi (3004) and its ConnectBox floor through the estate. PeopleHub HR is being built to its specification.

FOUNDING LENDING PARTNER

Micromart Africa

Works its books (3002 and 3005) through the estate, and holds the bureau subscription under which Interchange bureau reports are fulfilled.

FROM 1 NOVEMBER 2026, EACH FOUNDING LENDER HOLDS	KES A MONTH
Lending Console, Startup edition Origination, scoring, disbursement and collections: the loan book	20,000
CallBox Call-Center Collections floor, dialler, promises and call records, up to 10 agent seats	15,000
The Interchange, contributing member Membership waived for members who share their book. Reports are metered.	Included
Founding Partner rate (Agreement TC-FPA-2026-02)	−5,000
Monthly subscription, per lender	**KES 30,000**

No fixed estate price

The subscription is the sum of the systems a lender has accepted. It grows only when a new system has been piloted on the lender's own operations and accepted in writing, starting with PeopleHub HR.

Two invoices, two payees

BirgenAI Hub invoices ConnectedSuite (Till 5620596). Techcrast invoices its own ServiceSuite services (Paybill 303030). Each is paid only to the account printed on it.

The Interchange, now

Both lenders can check, today, whether an applicant is servicing loans at the other, from live books, with the applicant's consent, without either seeing the other's customers.

01 The Parties

PARTY	NAME AND ROLE IN THIS AGREEMENT	REPRESENTED BY
birgenAI hub	**BirgenAI Hub Limited**, a private company limited by shares, incorporated in Kenya under the Companies Act, 2015 (company number _____) ("**BirgenAI Hub**", the "**Developer**")	Emmanuel Birgen, Founder and Lead Engineer, ConnectedSuite
TECHCRAST SOFTWARE SOLUTIONS	**Techcrast Software Solutions Limited**, a company incorporated in Kenya ("**Techcrast**", the "**Distributor**")	Sammy Kegode, Chief Executive Officer
We provide, You Prosper	**Axe Micro-Enterprise Ltd**, a company incorporated in Kenya ("**Axe**")	Bennedict Omondi, Chief Executive Officer
MICROMART AFRICA LTD	**Micromart Africa Ltd**, a company incorporated in Kenya ("**Micromart**")	Morris Martin, General Manager

Axe and Micromart are together the "**Founding Lending Partners**" and each a "**Lender**". BirgenAI Hub, Techcrast and the Lenders are each a "**Party**".

Background

A. **ConnectedSuite** is an estate of lending systems: the Lending Console, CallBox Call-Center, the Interchange, the Customer Portal, Analytics & Reporting, Ledgerly Accounting and PeopleHub HR. They share one sign-in (BirgenAI ID), one organisation structure and one record of every borrower. ConnectedSuite was conceived, designed and built by Emmanuel Birgen, founder of BirgenAI Hub, who is its lead engineer and, at the date of this Agreement, its only engineer.

B. **Techcrast** develops and licenses ServiceSuite, the loan management system on which both Lenders hold their books, and ConnectBox. Techcrast packages and sells ConnectedSuite to the market under its umbrella and mark.

C. Emmanuel Birgen is also engaged by Techcrast. The Parties record in clauses 3.6 and 10.2 that his work on ConnectedSuite is done for BirgenAI Hub.

D. **Micromart** works its books through ConnectedSuite and holds the subscription with Metropol Credit Reference Bureau Limited (the "**Bureau**") under which Interchange bureau reports are fulfilled. **Axe** has worked its books, Boresha (entity 3003) and Stawi (entity 3004), through the Lending Console, and its ConnectBox collections floor through CallBox, since October 2026.

E. Both Lenders are active members of the Interchange: Micromart as 3002 and 3005, and Axe as AXE-3003 and AXE-3004, admitted on 17 September 2026 by the Interchange's ecosystem governor. Both publish their positions in tokenised form, and live exposure checks between them have run in production since 24 October 2026.

F. The Parties wish to build the estate together and to record, in one agreement, how it is built, sold, priced, paid for and shared.

02 Definitions

Acceptance	A Lender's written acceptance of a System after its Pilot, under clause 6, by the certificate in Schedule 6 or as deemed in clause 6.4.

Billing Month	A calendar month in Nairobi time. The first under this Agreement is November 2026.
Bureau Report	A report fetched from the Bureau, alone or as part of an Interchange report.
Contract Holder	A Member whose own Bureau subscription fulfils Bureau Reports for other Members through the Shared Bureau Lane. Micromart is the Contract Holder at the Effective Date.
Effective Date	1 November 2026.
Exposure Check	An Interchange query, made with the applicant's consent, that answers whether the applicant is servicing loans at other Members, in the aggregates described in Schedule 3.
Founding Partner Price	The price a Lender pays for a System under Schedule 2.
Interchange	ConnectedSuite's credit exchange between Members: the registry, the exposure protocol, the consent register and the reports, operated by BirgenAI Hub.
Lender Data	All data a Lender, its staff or its borrowers put into, or a Lender's own systems give to, ConnectedSuite, including Personal Data.
List Price	The price of a System in the ConnectedSuite Price Book in force.
Member	A lender admitted to the Interchange under its Membership Rules.
Personal Data	As defined in the Data Protection Act, 2019.
Pilot	A period of at least 14 days in which a Lender uses a new System in its own live operations before deciding whether to accept it.
Position	A Member's tokenised record of one borrower's current lending with it, published to the Interchange.
Rate Card	The Interchange API Rate Card in Schedule 4, as updated under clause 9.2.
Shared Bureau Lane	Fulfilment of a Member's Bureau Report request under a Contract Holder's Bureau subscription, through the Interchange.
System	One of the ConnectedSuite systems named in Background A, and any system BirgenAI Hub adds to the estate.

03 Who does what

3.1 **BirgenAI Hub** develops, engineers, hosts, secures and supports ConnectedSuite, and controls it. It decides the architecture, the priorities, the design and the timing of every release, and it operates the Interchange. It issues the ConnectedSuite invoices and receives their payment.

3.2 **Engineering.** Emmanuel Birgen leads the engineering of the estate. Any developer later engaged to work on ConnectedSuite is engaged by BirgenAI Hub, on terms that assign their work to BirgenAI Hub.

3.3 **Techcrast** packages, markets and sells ConnectedSuite under its umbrella and mark. It is each Lender's first point of contact for its relationship and account, and it coordinates onboarding and training with BirgenAI Hub. It continues to license and support ServiceSuite and ConnectBox under its own agreements with each Lender. It gives BirgenAI Hub the technical cooperation needed for ConnectedSuite to connect to each Lender's ServiceSuite and ConnectBox databases, to read them and, where the Lender authorises under clause 12.6, to write to them.

3.4 **Limits of distribution.** Techcrast does not change ConnectedSuite, its prices or its terms, and does not grant rights in it, except as BirgenAI Hub agrees in writing.

3.5 **Each Lender** uses the Systems it holds in its own lending business; publishes its Positions to the Interchange; takes part in Pilots and acceptance testing; responds to requirements and test builds within 5 business days; keeps its users' credentials secure; obtains its borrowers' consents; and pays its invoices.

3.6 **A disclosed dual role.** The Parties know that Emmanuel Birgen is engaged by Techcrast as well as being BirgenAI Hub's founder. Techcrast consents to his work on ConnectedSuite for BirgenAI Hub, and agrees that his engagement with Techcrast gives Techcrast no right in ConnectedSuite (clause 10.2). Where a matter under this Agreement is between BirgenAI Hub and Techcrast, Techcrast is represented by someone other than Emmanuel Birgen.

3.7 **Support.** A Lender raises any issue through one entry point: Riri in the console, the support line, or email. Issues in ServiceSuite or ConnectBox go to Techcrast. Issues in ConnectedSuite go to BirgenAI Hub. A fault that crosses both is worked jointly, and neither Party closes it by pointing at the other's system without evidence.

04 The Systems each Lender holds

4.1 **Axe**, from the Effective Date: (a) the Lending Console, in bridged mode on Axe's ServiceSuite, with Boresha (3003) and Stawi (3004) kept separate throughout; (b) CallBox Call-Center, operating Axe's ConnectBox floor, with up to 10 agent seats; and (c) the Interchange, as a contributing Member (AXE-3003 and AXE-3004).

4.2 **Micromart**, from the Effective Date: (a) the Lending Console, in bridged mode on Micromart's ServiceSuite (3002 and 3005); (b) CallBox Call-Center, with up to 10 agent seats; and (c) the Interchange, as a contributing Member and as Contract Holder for the Shared Bureau Lane.

4.3 **In Pilot, at no fee until accepted:** PeopleHub HR (clause 6.6); the Customer Portal; Analytics & Reporting; and Ledgerly Accounting. Each is offered to both Lenders.

4.4 **Seats and scale.** More CallBox agent seats, and any volume beyond the allowances in the Price Book, are priced under the Price Book and appear on the invoice as separate lines.

05 Fees, and how they grow

5.1 **Founding Partner Price.** Each month, each Lender pays the List Price of each System it has accepted, less its Founding Partner discount, as set out in Schedule 2. From the Effective Date this comes to **KES 30,000 a month for each Lender**: the Lending Console (Startup edition) at 20,000 and CallBox at 15,000, with Interchange membership waived as a contributing Member, less the Founding Partner discount of 5,000.

5.2 **No fixed estate price.** There is no fixed monthly figure for the estate. The subscription is the sum of the Systems in use. It rises only when a Lender accepts a new System under clause 6, and it falls from the next Billing Month when a Lender asks for a System to be switched off.

5.3 **New Systems** join a Lender's invoice at their Founding Partner Price in Schedule 2, which is the List Price less 20%. PeopleHub HR, for example, lists at KES 25,000 a month and joins at KES 20,000.

5.4 **List price changes** take effect only on 60 days' written notice. For a Founding Lending Partner, no System's price rises by more than 10% in any 12 months, and no change is ever applied to a month already invoiced.

5.5 **Usage.** Metered services beyond the allowances in the Price Book, and Interchange reports at the Rate Card, are billed monthly in arrears.

5.6 **Tax.** Prices exclude VAT. VAT is added only where, and from when, the issuing Party is registered for it. Each issuer issues tax invoices through KRA eTIMS where the law requires.

5.7 **Equal treatment.** The two Lenders hold the same Systems on the same prices, the same discount, the same Rate Card and the same Interchange rules. Neither receives better terms than the other without the same being offered to the other.

5.8 **Founding terms protected.** For 24 months from the Effective Date, BirgenAI Hub will not give another lender the same Systems at a deeper discount on comparable volumes without offering it to both Lenders. This excludes the Startup Lender Programme and time-limited pilots.

5.9 **Referrals.** A Lender that introduces a new lender receives a credit on its own invoice of 10% of the first 12 months' subscription fees the new lender pays.

06 Pilots and acceptance: how a System joins the invoice

6.1 **Before the Pilot,** BirgenAI Hub and the Lender agree in writing what the System must do to be accepted (the acceptance criteria). BirgenAI Hub demonstrates the build before it reaches the Lender's users.

6.2 **The Pilot** runs for at least 14 days on the Lender's own live operations. Nothing is billed for it, then or later.

6.3 **Acceptance** is given by the certificate in Schedule 6, signed by the Lender's authorised officer, within 14 days after the Pilot ends. A Lender that finds a material defect against the acceptance criteria says so in writing within the same period. BirgenAI Hub fixes it, and the Lender re-tests within 5 business days of the fix.

6.4 **Deemed acceptance.** A System the Lender keeps using in its live operations for 30 days after the Pilot ends, without written notice of a material defect, is accepted.

6.5 **Billing** for an accepted System starts in the first Billing Month after Acceptance. A Lender may instead decline the System within 14 days after the Pilot. It is then switched off, and the Lender's data in it is exported to the Lender.

6.6 **PeopleHub HR** is being built for Axe to the PeopleHub HR mockup Axe reviewed in October 2026, module by module, as the PeopleHub HR Build Blueprint of 27 October 2026 sets out. The target is a Pilot in the second half of November 2026. Axe's acceptance criteria are that mockup and that blueprint. Micromart may pilot PeopleHub on the same terms.

07 Invoices and payment: the two invoices

7.1 **BirgenAI Hub's ConnectedSuite invoice** is issued on the first day of each Billing Month. It carries (a) that month's subscription, in advance, and (b) the previous month's metered usage and Interchange reports, in arrears. It is numbered INV-<LENDER>-YYYYMM and is downloadable from Billing in the app launcher. It is payable within 14 days by M-PESA from Billing (the prompt comes to the payer's phone through the BirgenAI wallet), or to **M-PESA Buy Goods Till 5620596, account name BIRGENAI HUB**.

7.2 **Techcrast's invoice** covers Techcrast's own services: the ServiceSuite licence and support, and anything else Techcrast itself supplies. Techcrast issues it under its own agreement with each Lender. It is payable to **M-PESA Paybill 303030, account number 2044699985, account name**

Techcrast Software Solutions Ltd. It is not a ConnectedSuite fee, and this Agreement neither sets nor changes it.

7.3 **Each invoice is paid only to the account printed on it.** A payment made to the wrong account does not settle the other invoice. The Party that receives it forwards or refunds it within 5 business days of being told.

7.4 **Late payment.** If a ConnectedSuite invoice is unpaid 14 days after issue, metered services pause until it is paid. These are scoring, bureau and identity checks, and Riri. The loan book, repayments and collections never stop, and nothing is deleted. If an invoice is unpaid after 45 days, BirgenAI Hub may suspend other Systems on 14 days' written notice. A Lender's data is never withheld from it.

7.5 **Disputes about an invoice** are raised in writing within 14 days of issue. The undisputed part is paid when due, and the rest is resolved under clause 15.

7.6 **Before November 2026.** No ConnectedSuite invoice for a month before November 2026 is payable under this Agreement, and any such invoice still open in the estate is cancelled. Invoices that Techcrast issued for earlier months are matters between Techcrast and the Lender concerned.

08 The Interchange between the founding lenders

8.1 **Live exposure, now.** From signature, and as it already runs, each Lender may make Exposure Checks that read the other Lender's live Positions, for any applicant who has consented. The answer says whether the applicant is servicing loans at other Members and, if so, how many loans, at how many lenders, a banded outstanding total, the worst arrears bucket, and the most recent disbursement date. It never names the other lender unless the borrower separately consents to that. It never gives an exact balance, and it never shows a Lender its own books or its sister books.

8.2 **Reciprocity.** Each Lender publishes its Positions at least once a day. The ecosystem reports are free to a Member only while its contribution is current. A Member that stops publishing loses them until it resumes. A Member that has not published is always reported as "not published" and never as "no exposure".

8.3 **What leaves a Lender's systems.** Positions are published as keyed tokens computed from the national ID. No name, phone number or ID number leaves a Lender's systems for the exposure exchange. A Bureau Report is the only case in which an ID number reaches the Interchange, because the Bureau searches by it. Even then the Interchange uses it only for that request and does not store it.

8.4 **Permitted use, and no poaching.** A Lender uses Interchange information only to assess a credit application made to it, or to manage an existing loan of its own customer, with that person's consent. It never uses Interchange information for marketing or solicitation, or to identify, approach or target another Member's borrowers. A breach of this clause allows BirgenAI Hub to suspend the Lender's Interchange access, and the Lender in breach makes good the other Parties' resulting loss.

8.5 **Accuracy.** Each Lender is responsible for the accuracy of the Positions it publishes. It corrects an error within 2 business days of being told of it. A borrower who disputes a Position is referred to the Lender that published it.

8.6 **Decisions stay with each Lender.** The Interchange supplies information, not credit decisions. Each Lender decides its own applications and is responsible for those decisions.

8.7 **Governance.** BirgenAI Hub operates the Interchange. New Members are admitted by the ecosystem governor under written Membership Rules that apply equally to every Member, and the Lenders are told of each admission. No Member, the Founding Lending Partners included, ever has access to another Member's book.

8.8 **Included reports.** The ecosystem reports, which are Ecosystem Exposure and Delinquency Status, and later Intent Signal, Contactability and Cohort Benchmark as each is released, are included in the subscription for contributing Members.

8.9 **Audit.** Every Interchange request is logged with the requesting Member, the user, the consent relied on, the report and the time. Each Lender can see every request its own users made. The log is kept for audit, for disputes and for lawful requests from regulators.

09 Sharing bureau resources

9.1 **The Shared Bureau Lane.** Micromart allows Bureau Reports requested by Axe, and by later Members it agrees to, to be fulfilled under its Bureau subscription through the Interchange. It does so on these conditions: (a) the applicant has consented to a bureau enquiry, in a consent that names the requesting Member and the Interchange; (b) the report is used only for a purpose the Credit Reference Bureau Regulations, 2020 permit; and (c) Micromart has confirmed in Schedule 4, or later in writing, that it is satisfied the arrangement is permitted under its subscription with the Bureau. The lane opens for Axe on the later of the Effective Date and that confirmation.

9.2 **Prices.** Bureau Reports are priced on the Rate Card in Schedule 4. BirgenAI Hub may change the Rate Card on 30 days' written notice, and at once if the Bureau changes its own prices or the taxes on them, by no more than the Bureau's change.

9.3 **Where each shilling goes.** For each Bureau Report in the Shared Bureau Lane: (a) the Bureau's charge, including excise duty and VAT, is reimbursed to the Contract Holder at cost; (b) the Contract Holder receives a contract-holder fee of 10% of the Bureau's net price; and (c) the balance is the Interchange fee, which belongs to BirgenAI Hub.

9.4 **Settlement.** BirgenAI Hub bills the requesting Member monthly on its ConnectedSuite invoice. Within 5 business days of receiving that payment, it pays the Contract Holder items (a) and (b) for the month, with the Interchange usage statement, which lists each request's time, report type, requesting Member and Bureau transaction reference. The Contract Holder may reconcile the statement against the Bureau's invoice. Any difference is corrected on the next statement.

9.5 **Protecting the Contract Holder.** The Shared Bureau Lane is suspended automatically for a Member whose ConnectedSuite invoice is more than 14 days overdue. The Contract Holder may set a daily request limit and a monthly ceiling on Bureau charges for each requesting Member, and BirgenAI Hub applies them within 2 business days.

9.6 **Suspension by the Contract Holder.** Micromart may suspend the Shared Bureau Lane at any time by written notice to BirgenAI Hub, with immediate effect for new requests, if the Bureau objects, if a requesting Member breaches clause 8.4 or 9.1, or for non-payment. Requests already answered are settled as normal.

9.7 **Own-Contract Lane.** Any Member may connect its own Bureau subscription through the Interchange. BirgenAI Hub connects it at no set-up charge. That Member then pays the Bureau directly and pays BirgenAI Hub only the Interchange fee shown in Schedule 4.

9.8 **The Contract Holder's own requests.** A Member whose subscription serves the Shared Bureau Lane pays no Interchange fee on its own requests under that subscription while it does so.

9.9 **Enquiry footprint and responsibility.** A request in the Shared Bureau Lane is made under the Contract Holder's subscriber code. The Interchange records the true requesting Member for every request, and gives that record to the Contract Holder, the Bureau or a regulator on request. The requesting Member is responsible for the consent and the purpose of each request. It makes good any loss the Contract Holder or BirgenAI Hub suffers through its breach.

9.10 **Bureau responses are not altered.** The Bureau's response is kept exactly as sent. The Interchange's own analysis is presented beside it and clearly labelled as the Interchange's.

10 Ownership and intellectual property

10.1 **BirgenAI Hub owns ConnectedSuite.** This covers every System, all source code, models, designs, documentation and data structures, the Interchange protocol and registry software, and the names ConnectedSuite, CallBox, The Interchange, PeopleHub, Ledgerly and Riri. It also covers everything built under this Agreement, including features built at a Lender's request.

10.2 **Techcrast's confirmation.** Techcrast confirms that ConnectedSuite was conceived and developed by Emmanuel Birgen for BirgenAI Hub, and is not Techcrast's property or a work made in the course of his engagement with Techcrast. Techcrast claims no right in ConnectedSuite. If Techcrast has, or later acquires, any such right, including one arising from that engagement, it assigns that right to BirgenAI Hub and will sign any document reasonably needed to confirm the assignment.

10.3 **Techcrast owns ServiceSuite and ConnectBox.** Nothing in this Agreement transfers any right in them. ConnectedSuite connects to them only as the Lenders and Techcrast authorise. BirgenAI Hub does not copy or modify their source code.

10.4 **Each Lender owns its Lender Data and its own configuration.** That configuration includes its products, workflows, charges, branding and reports. A Lender may export its data at any time, in open formats.

10.5 **Right of use.** Each Lender has a non-exclusive, non-transferable right to use the Systems it holds in its own lending business while this Agreement applies to it.

10.6 **Marks.** Techcrast permits BirgenAI Hub to show Techcrast's mark on ConnectedSuite's own pages and materials, as the umbrella under which ConnectedSuite is sold. BirgenAI Hub permits Techcrast to use the ConnectedSuite name and materials to market it. Each permission ends with Techcrast's distribution role under clause 14.4.

10.7 **Feedback.** Suggestions a Party makes about ConnectedSuite may be used by BirgenAI Hub freely and without charge.

10.8 **No equity.** Nothing in this Agreement gives any Party shares, options or any ownership interest in another. Any such instrument would be a separate document approved by the issuing company's board.

11 Between BirgenAI Hub and Techcrast

11.1 **Distribution terms.** Techcrast's remuneration for distributing ConnectedSuite is set in a separate distribution agreement between BirgenAI Hub and Techcrast, which they will sign within 30 days of the Effective Date. That agreement does not change any fee a Lender pays under this Agreement.

11.2 **Fair dealing.** Neither BirgenAI Hub nor Techcrast uses the other's confidential information to build or sell a competing product. Each refers to the other any enquiry about the other's product.

12 Data protection and security

12.1 **Roles.** Each Lender is the data controller of its Lender Data. BirgenAI Hub processes Lender Data in ConnectedSuite as its data processor. Techcrast processes data in ServiceSuite and ConnectBox under its own agreements with each Lender.

12.2 **Compliance.** Each Party complies with the Data Protection Act, 2019 and keeps any registration with the Office of the Data Protection Commissioner that it needs. BirgenAI Hub processes Lender Data only on the Lender's documented instructions. It keeps it confidential, hosts it in Nairobi, encrypts it in transit, limits access by role, logs access and keeps daily backups.

12.3 **Breaches.** BirgenAI Hub tells an affected Lender of a personal data breach within 24 hours of becoming aware of it, and helps the Lender meet its own duty to notify the Data Protection Commissioner within 72 hours.

12.4 **Sub-processors.** BirgenAI Hub's sub-processors are its hosting provider, its SMS provider and the Bureau. BirgenAI Hub gives 30 days' notice before adding another, and the Lender may object on reasonable grounds.

12.5 **Data subjects.** BirgenAI Hub helps each Lender answer requests from its borrowers and staff exercising their rights under the Act.

12.6 **The live books.** ConnectedSuite reads a Lender's ServiceSuite and ConnectBox databases only over the connections that Lender has authorised. Writes are enabled one capability at a time, only on the Lender's written instruction. Each write is recorded in an audit log the Lender can read. A Lender may revoke any write capability by written notice, effective within one business day.

12.7 **Staff data in PeopleHub HR** belongs to the Lender whose staff it describes. It is never visible to any other Lender or Member.

13 Product Council and roadmap

13.1 **The Product Council** has one seat for each Party. It meets monthly for the first six months and quarterly after that. BirgenAI Hub chairs it and circulates minutes within 5 business days.

13.2 **Decisions.** Any Party may propose roadmap items. BirgenAI Hub decides priority and design, and records why each proposal is accepted, deferred or declined. The Council advises; it does not veto.

13.3 **Releases.** A release is demonstrated before it reaches a Lender's users. No new capability is switched on in a Lender's live operations without that Lender's go-ahead.

14 Term, exit and changes of Party

14.1 **Term.** This Agreement starts on the Effective Date. It has an initial term of 12 months and then continues until ended under this clause.

14.2 **A Lender leaving.** After the initial term, a Lender may end its participation on 90 days' written notice. At any time, it may end it on 30 days' notice for a material breach that has not been put right within 30 days of written notice. The Agreement continues among the other Parties.

14.3 **Ending a Lender's participation.** BirgenAI Hub may end a Lender's participation if a ConnectedSuite invoice is unpaid for more than 60 days, or for a material breach of clause 8.4 or

9.1 that is not put right within 30 days of written notice.

14.4 **Techcrast's distribution role** may be ended by Techcrast or by BirgenAI Hub on 90 days' written notice. Ending it does not end any Lender's subscription. BirgenAI Hub continues to serve the Lenders directly, and ServiceSuite continues under each Lender's agreement with Techcrast.

14.5 **Exit assistance.** A Lender that leaves has 60 days of continued access in which to run off, and a full export of its Lender Data in open formats. Its Positions are withdrawn from the Interchange within 1 business day, and its tokens are purged within 30 days, unless the law requires them to be kept longer.

14.6 **Survival.** Clauses 7.3, 8.4, 9.9, 10, 12, 15, 16 and 17 survive the end of a Party's participation.

15 Disputes

15.1 **Escalation.** A dispute goes first to the Product Council members of the Parties concerned, for 10 business days. It then goes to their signatories, or their delegates, for a further 10 business days. If it is still not settled, the Parties concerned try mediation by a mediator they agree. If it remains unresolved 30 days after mediation begins, it is referred to arbitration in Nairobi under the Arbitration Act, 1995, before a sole arbitrator. If the Parties concerned cannot agree on the arbitrator, the Chairperson of the Chartered Institute of Arbitrators, Kenya Branch, appoints one.

15.2 **Only the Parties concerned** are parties to a dispute. The others may be heard if they ask to be.

15.3 **Service continues.** During a dispute, the Systems keep running and the undisputed fees are paid. No Lender's book is stopped because of a dispute.

16 Liability

16.1 **Cap.** Each Party's total liability to the others under this Agreement in any 12 months is limited to the ConnectedSuite fees the affected Lender paid in the 12 months before the claim. The cap does not apply to fraud, wilful misconduct, a breach of clause 8.4, 9.9 or 17, or a personal data breach caused by gross negligence. It also does not apply to fees due, or to death or personal injury caused by negligence.

16.2 **No indirect loss.** No Party is liable for indirect or consequential loss, or for loss of profit, revenue or goodwill.

16.3 **Each answers for its own product.** BirgenAI Hub is responsible for ConnectedSuite, and Techcrast for ServiceSuite and ConnectBox. Each Lender is responsible for its own lending decisions.

17 Confidentiality

Each Party keeps confidential the others' business, technical and customer information, and this Agreement's terms, during the Agreement and for 3 years after its participation ends. Information that is public, already known to the recipient, independently developed, or required by law or a regulator to be disclosed is excepted. A Lender's book is confidential to it forever.

18 General

18.1 **No partnership in law.** "Founding Partnership" describes a commercial relationship. Nothing in this Agreement creates a partnership under the Partnership Act, 2012, a joint venture, or an

agency, and no Party may bind another.

18.2 **Entire agreement.** This Agreement, with its Schedules, is the whole agreement on its subject. It replaces the drafts of 20 October 2026 and the unsigned reference TC-FPA-2026-01. Each Lender's agreements with Techcrast for ServiceSuite and ConnectBox continue unchanged.

18.3 **Changes.** A change is valid only in writing, signed by the Parties it affects. A change to clauses 5, 8, 9 or 10 needs all four.

18.4 **Assignment.** BirgenAI Hub may assign this Agreement to a company it controls, or under common control with it, that owns or operates ConnectedSuite, on written notice. No other Party may assign it without the others' consent, which may not be unreasonably withheld.

18.5 **Notices** are given by email to the addresses in Schedule 1, with a copy by hand or courier for any notice to end participation.

18.6 **Force majeure.** No Party is liable for delay caused by events beyond its reasonable control. This includes failures of the national power grid, mobile networks or the Bureau. Each Party keeps the others informed and resumes as soon as it can.

18.7 **Integrity.** Each Party complies with the Bribery Act, 2016 and the Proceeds of Crime and Anti-Money Laundering Act, 2009.

18.8 **Counterparts and signatures.** This Agreement may be signed in counterparts, and by electronic signature, each of which is an original.

18.9 **Law.** This Agreement is governed by the laws of Kenya.

19 Signed by the four Parties

Each signatory confirms that they are authorised to sign for the Party named above their signature.

S1 Schedule 1: Contacts and notices

PARTY	SIGNATORY	NOTICES TO	PRODUCT COUNCIL SEAT
BirgenAI Hub Limited	Emmanuel Birgen	birgenaihub@gmail.com	Emmanuel Birgen (chair)
Techcrast Software Solutions Limited	Sammy Kegode		
Axe Micro-Enterprise Ltd	Bennedict Omondi		
Micromart Africa Ltd	Morris Martin	morris@micromartafrica.com	

S2 Schedule 2: Systems, prices and how the invoice grows

SYSTEM	LIST, KES / MONTH	FOUNDING PARTNER, KES / MONTH	AXE	MICROMART
Lending Console, Startup edition	20,000	20,000	Held	Held
CallBox Call-Center (up to 10 agent seats)	15,000	15,000	Held	Held
The Interchange (membership)	10,000	Waived while contributing	Held	Held
Founding Partner discount on the founding pair		−5,000	Applies to both	
PeopleHub HR (up to 500 staff)	25,000	20,000	Pilot, second half of November 2026	Pilot on request
Customer Portal	10,000	8,000	Pilot on request	Pilot
Analytics & Reporting	7,500	6,000	Pilot	Pilot
Ledgerly Accounting	7,500	6,000	Pilot	Pilot

Each Lender, November 2026

Lending Console, Startup edition	20,000
CallBox Call-Center	15,000
The Interchange, contributing member	Included
Founding Partner rate	−5,000
Monthly subscription	**KES 30,000**

Axe, after PeopleHub HR is accepted

Lending Console, Startup edition	20,000
CallBox Call-Center	15,000
PeopleHub HR	25,000
The Interchange, contributing member	Included
Founding Partner rate	−10,000
Monthly subscription	**KES 50,000**

The invoice always lists each System at its List Price, then one "Founding Partner rate" line, so each Lender's board can see what the partnership is worth. A System is billed from the first Billing Month after its Acceptance (clause 6.5).

S3 Schedule 3: The Interchange, what is shared and what never is

SHARED BETWEEN MEMBERS, WITH THE APPLICANT'S CONSENT	NEVER SHARED
• Whether the applicant is servicing loans at other Members • How many loans, and at how many lenders • The outstanding total, in bands (under 10k, 10k–25k, 25k–50k, 50k–100k, 100k–250k, over 250k) • The worst arrears bucket • The date of the most recent disbursement • Whether every Member answered, or some had not published	• Another lender's name, unless the borrower separately consents • Any exact balance, loan amount or loan account • Names, phone numbers or ID numbers, for the exposure exchange • Any Member's customer list or book, in whole or in part • A Lender's own books, or its sister books, in its own answers • Staff data from PeopleHub HR

CONSENT SCOPE	WHAT IT ALLOWS
`ecosystem.exposure`	Exposure Checks and the ecosystem reports
`bureau.pull`	A Bureau Report, in either lane
`kyc.verify`	Identity verification
`identity.disclose`	Naming the other lender in an exposure answer

S4 Schedule 4: Interchange API Rate Card and the Shared Bureau Lane

Prices per report answered by the Bureau, in KES. "Card price" is what a Member pays in the Shared Bureau Lane. It includes the Bureau's own charge with 10% excise duty and 16% VAT, which is reimbursed to the Contract Holder. "Interchange fee only" is what a Member pays in the Own-Contract Lane, where it pays the Bureau directly.

REPORT	BUREAU NET	BUREAU + TAXES TO MICROMART	HOLDER FEE TO MICROMART	INTERCHANGE FEE TO BIRGENAI HUB	CARD PRICE
1 Identity Verification	25	31.90	2.50	10.60	**45**
2 Delinquency Report	25	31.90	2.50	10.60	**45**
3 Credit Score	50	63.80	5.00	16.20	**85**
4 Credit Report (PDF)	80	102.08	8.00	24.92	**135**
5 JSON Credit Report	80	102.08	8.00	24.92	**135**
6 Identity Scrub	25	31.90	2.50	10.60	**45**
8 Credit Info	100	127.60	10.00	32.40	**170**
10 Enhanced Credit Info	150	191.40	15.00	43.60	**250**

11 Credit Info with Income Estimation	175	223.30	17.50	49.20	**290**
12 Full Enhanced Credit Info	200	255.20	20.00	54.80	**330**
13 Minified Credit Info	100	127.60	10.00	32.40	**170**
14 Full JSON Credit Report	200	255.20	20.00	54.80	**330**
Interchange Credit File (12 + 8 + 11)	475	606.10	47.50	136.40	**790**

Ecosystem reports (Ecosystem Exposure, Delinquency Status, and later Intent Signal, Contactability and Cohort Benchmark): included for contributing Members.

Bureau net prices are the Bureau's API rate card held by Micromart, received 22 September 2026, exclusive of 10% excise duty and 16% VAT. Excise is charged on the net price and VAT on the net price plus excise, so the Bureau's charge is 1.276 times the net price. In the Own-Contract Lane, the Interchange fee is the "Interchange fee" column rounded to the nearest shilling.

Micromart's confirmation for the Shared Bureau Lane (clause 9.1(c))

☐ Micromart confirms that the Shared Bureau Lane may open for Axe on the Effective Date.

☐ Micromart will confirm in writing once it has consulted the Bureau. Until then, Axe uses the ecosystem reports and, if it wishes, the Own-Contract Lane.

Daily request limit for Axe: _____ · Monthly ceiling on Bureau charges for Axe: KES _____ · Initials for Micromart: _____

S5 Schedule 5: The two invoices

CONNECTEDSUITE INVOICE

Issued by BirgenAI Hub Limited

What it carries: the Systems a Lender holds, at List Price; the Founding Partner rate; the previous month's metered usage and Interchange reports.

When: the 1st of each month, for that month (usage for the month before). **Due:** within 14 days.

Pay to: M-PESA Buy Goods **Till 5620596**, account name **BIRGENAI HUB**, or press Pay in Billing (app launcher, top right) for the M-PESA prompt.

Number: INV-AXE-202611, INV-MICROMART-202611 and so on.

SERVICESUITE INVOICE

Issued by Techcrast Software Solutions Limited

What it carries: Techcrast's own services: the ServiceSuite licence and support, and anything else Techcrast supplies, under its own agreement with the Lender.

When and how much: as Techcrast's agreement with the Lender says.

Pay to: M-PESA **Paybill 303030**, account number **2044699985**, account name **Techcrast Software Solutions Ltd**.

Not a ConnectedSuite fee.

Both invoices appear in Billing in each Lender's app launcher. Each invoice shows its own issuer, logo and payment details, so a finance team never has to guess which account settles which bill.

S6 Schedule 6: Acceptance certificate

System: _____ **Lender:** _____ **Pilot:** from _____ to _____

The Lender has piloted the System above in its live operations. It confirms that the System meets the acceptance criteria agreed under clause 6.1, apart from the items listed below, none of which is a material defect. It accepts the System under clause 6.3 of Agreement TC-FPA-2026-02. Billing starts in the first Billing Month after the date of this certificate, at the Founding Partner Price in Schedule 2.

Open items (not material):

_____

_____

For the Lender: name, title, signature and date

_____

For BirgenAI Hub: name, title, signature and date
